Process

Title: DHS|OHA-090-003-015 Service Account Password and Management Process

Related to: DHS|OHA-090-003 Access Control

Effective date: 11/05/2018

Purpose
Service accounts are used for running application software or are used internally by the operating system. The purpose of this process is to outline the steps to obtain and manage a service account password for information technology (IT) system tasks for the Department of Human Services (DHS) and Oregon Health Authority (OHA).

Process Steps
1. Owners of service accounts accessing DHS|OHA information systems shall follow these requirements for service account password assignment:
   a. Create passwords that meet complexity standards.
   b. Change service account passwords every 180 days.
   c. Restrict to specific devices and hours when possible.
   d. Assign permissions based on the principle of least privilege.
   e. Prohibit sharing service account credentials.
2. Passwords shall be composed of the following:
   a. At least fifteen (15) characters long.
   b. At least one character from each of these categories:
      A. Uppercase letter (A-Z)
      B. Lowercase letter (a-z)
      C. Numeral (0-9)
      D. Special character (% @ # $ ! * / + > < [ ] { } \ -)
3. Passwords shall not include spaces.
4. Passwords shall not be set to one of the last 24 previously used passwords.
5. DHS|OHA information systems and applications shall not display passwords in plain text when entered and shall not transmit unencrypted passwords.
