Below are some questions & answers for PSWs on the implementation of EVV & using **eXPRS Mobile-EVV**.

Q: What is EVV?

A: Electronic Visit Verification (or EVV) is part of a federal law that was passed by Congress in 2016. It requires states to verify the delivery of Medicaid funded Attendant or Personal Care services in real time (meaning at the time the service is occurring) from providers. The EVV time capture feature in eXPRS will save PSWs time by reducing the amount of work PSWs must do to enter Service Delivered (SD) billings in eXPRS manually. eXPRS' EVV method will capt[...] all the billing data required & save it in eXPRS automatically.

Q: What is "eXPRS Desktop"?

A: eXPRS Desktop is what we call the regular eXPRS webs[...] now to log in & view all their eXPRS related informati[...] their SD billing & travel time data. eXPRS Desktop is be[...] regular desktop or laptop computer.
