

Viewing Allotment Payment Information

Did you know...

... that DD Agency & DD Foster Care Providers can now view the authorization for SE56 allotment claims to see notes and details about what that payment was for?

With the new grant funding that is being awarded and other grant-type payments that may be issued to providers, those claims are processed as an allotment claim under **Service Element 56 (SE56)** in eXPRS. And sometimes it is not clear from the claim itself what that allotment payment is for.

Now DD Agency and DD Foster Care Provider users with Provider Prior Authorization (PPA) permissions assigned can view the corresponding allotment authorization (the PPA) directly from the claim.

First, open the claim in question, then click on the **blue PA Adj #** on the claim.
