

Finding and Voiding Foster Care Service Claims

(updated 1/2/2026)

As a DD Foster Care provider of services managed and paid via eXPRS, it is your responsibility to review your claims for payment on a regular basis to determine if there are claims that require your attention as a provider to resolve.

There may be reasons that claims submitted do not pass the claims validation process and do not move to **approved** status. When that validation process fails to complete successfully, claims may move to **suspended** status. Depending on the reason for the suspension, FC providers may need to void the suspended claim, so they can create a new or corrected claim. This guide will assist FC providers in voiding those suspended claims.

DD Foster Care users must have the **DD FC Claims Manager** role to do this claim voiding work.

Follow the below steps to void a Foster Care service claim:

1. Log in to eXPRS. If you have more than one record associated to your eXPRS user account, select your Foster Care services record as the **Organization/Program Area**. Then click **SUBMIT** to login.

The screenshot shows the eXPRS login interface. At the top left, it says "Login" and "You are in the Production environment". Below this are two input fields: "Login Name:" with the text "userID" and "Password:" with a masked password of ".....". A "Submit" button is located below the password field. To the left of the "Submit" button are two links: "Forgot your password?" and "Need a login?". Two pink callout boxes with arrows point to the input fields: one pointing to the "Login Name" field with the text "Enter your User ID here" and another pointing to the "Password" field with the text "Enter password here".

2. From the yellow, left-hand navigation menu, click on **CLAIMS → SEARCH/UPDATE CLAIMS**. This will take you to the **Claims Search** page.

3. On the **Claims Search** page, enter the search criteria for the claims needing action and select **Find**.

Remember: To enable the checkboxes & action buttons to take action on multiple claims at once (e.g., *Void*), **you must select a status** from the **Status** dropdown menu.

For example: if you need to void a **suspended** claim, select & search using **Suspended** in the **Status** field.

The image shows the 'Claims Search' form with various search criteria fields. Annotations include:

- A pink cloud pointing to the 'Status' dropdown menu, which is set to 'Suspended'. The text inside the cloud reads: "The STATUS of the claims to be corrected."
- A pink cloud pointing to the 'Effective Date' (12/1/2017) and 'End Date' (12/31/2017) fields. The text inside the cloud reads: "The SERVICE DATE RANGE for the claims to be corrected."
- A pink arrow pointing to the 'Find' button at the bottom of the form.

- When the list of claims returns, check the box next to the claim(s) that need action & then click the appropriate action button at the bottom of the page.
 - If you want to **void** the checked claim(s), click the **VOID** button.
 - If you want to **submit** the checked claim(s), click the **SUBMIT** button.

Submit Void

The actions available to be taken on a list of claims from the search results depend on the option selected in the **Status** dropdown menu when searching for claims.

Status of Claim	Action Available
Approved	Void
Denied	No action available (<i>no buttons will show</i>)
Draft	Submit, Delete
Submitted	Submit, Void
Suspended	Submit, Void
Void	No action available (<i>no buttons will show</i>)

- If you click on **VOID**, you will get a confirmation pop-up message asking if you really wish to void the claim(s).

- Click **YES** to continue with the action.
- Click **CANCEL** to return to the previous page.

6. When the action is completed, you will be taken to the **Claim Processing Results** page showing the results of the action taken.
