

Updating Your User Account Information

(updated 10/16/2025)

Overview

Each eXPRS user should have up-to-date contact information on their User Account, including address, phone and email information.

Your email address is especially important, because eXPRS uses this to send you password resets and other communications.

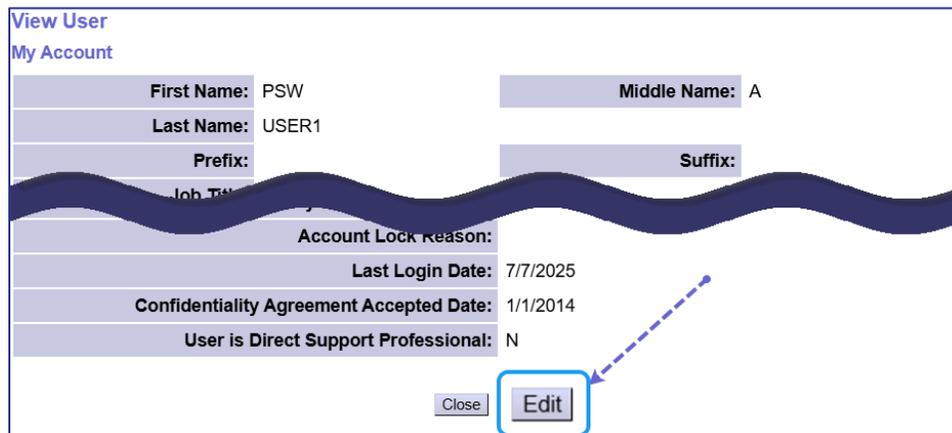

You can update some information on your User Account yourself by taking the following steps:

How to Update your User Account Information

1. Log into eXPRS and select **My Account** from the Top Menu bar

2. On the **View User** page, select the **Edit Button**.
